**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We have had every company in the area serve our internet needs and have found that nothing beats the speed, reliability or price of Sonic. We are hearing that companies like ATT are trying to block competitive broadband services thereby allowing them to be one of the few, if not only option for customers. I like the freedom and flexibility to be able to shop around and find the company and product that meets my needs. I have found that having an account with ATT in the past was restrictive and expensive. Prices were continuously raised and I would be stuck in contracts All while services or customer service would not improve. I believe Sonic has allowed us more freedom with a better product. America is built on freedom of choice and consumerism. Please allow us, as consumers, the ability to have choices and to be able to shop from a competitive market.
